

THALES

International Symposium on Piezocrystals and Their Applications

Time: July 14, 2019, from 9:00 to 17:00

Venue: [Hotel Starling](#) / [EPFL Campus](#) - [Lausanne](#), [Switzerland](#)

The Symposium (which is held independently of $f^2c\pi^2$ conference) will cover all aspects of piezocrystals, from fundamentals via applications to crystal growth. The program will include presentations from leading experts in the field from industry, government laboratories and academia.

We still have places available for additional participants. There are no registration fees.

If you are interested to participate or have questions on Symposium please contact Dragan Damjanovic at dragan.damjanovic@epfl.ch

For information how to reach the venue and related questions please look at the web site of $f^2c\pi^2$.
